Washington, DC 20036

Subject: Label Amendment – Label Clarification
Product Name: Potable Aqua
EPA Registration Number: 79533-1
Application Date: 1/7/2016
Decision Number: 512844

Dear Mrs. Wacek:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 79533-1
Decision No. 512844

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Donna Kamarei by phone at 703-347-0443, or via email at Kamarei.donna@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Wanda J. Fuller, for". The signature is written in a cursive style.

If in eyes: <ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.• Call a poison control center or doctor for treatment advice.
If swallowed: <ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have a person sip a glass of water if able to swallow.• Do not induce vomiting unless told to by a poison control center or doctor.• Do not give anything to an unconscious person.
Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

GENERAL INFORMATION

POTABLE AQUA Drinking Water Germicidal Tablets are intended for emergency disinfection of drinking water.

Or

([Potable Aqua is] For use only when water is of questionable quality or known to be substandard.

Or

[Potable Aqua] is for use only when fresh drinking water is suspected or known to be bacteriological substandard.)

Not to be used on a continuous basis.

Or

(For short term or limited emergency use only.)

Potable Aqua (This product) has not been tested for effectiveness at inactivating Cryptosporidium cysts.

Or

(Potable Aqua (This product) has not been shown to inactivate Cryptosporidium cysts.)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Note to reviewer: Directions will be based on how Potable Aqua is sold, by itself, with PA Plus or with a filter.

[● Potable Aqua Only]

Add 2 tablets of Potable Aqua to 1 quart or liter of water and cap loosely to allow a small amount of leakage. Wait 5 minutes. Shake container to allow screw threads on the closure to be moistened, then tighten cap. Wait 30 minutes before drinking.

[○ Potable Aqua with PA Plus]

Step 1: Add 2 tablets of Potable Aqua to 1 quart or liter of water and cap loosely to allow a small amount of leakage. Wait 5 minutes. Shake container to allow screw threads on the closure to be moistened, then tighten cap. Wait 30 minutes before drinking.

Step 2: P.A. Plus neutralizing tablets are for use AFTER water has been treated with Potable Aqua. Wait a minimum of 30 minutes after the addition of Potable Aqua before using P.A. Plus tablets. Adding the P.A. Plus tablet before 30 minutes may allow harmful bacteria to remain in the drinking water. DO NOT ADD POTABLE AQUA AND PA PLUS TABLETS AT THE SAME TIME.

Add 2 tablets of P.A. Plus per quart of water. Shake container well. Wait 3 minutes before drinking. Tablets do not have to completely dissolve to be effective.

[◆ Potable Aqua with Filter Bottle]

[1. FILL:] Remove filter cap and fill bottle with water.

[2. ADD] Add two Potable Aqua® Water Purification Tablets (included) and cap loosely to allow a small amount of leakage. Wait 5 minutes.

[3. SHAKE] Replace filter cap and shake container to allow screw threads on the closure to be moistened, then tighten cap

[4. DRINK] After 30 minutes, just squeeze for great tasting drinking water.

IMPORTANT INFORMATION ON POTABLE AQUA

Keep cap on [Potable Aqua] bottle tightly sealed.

Humidity, moisture and exposure to air will reduce effectiveness of tablets. We recommend that you do not keep an open bottle for more than one year. Unopened bottles should remain effective up to four years.

Recap bottle tightly. Keep tablets dry.

IMPORTANT INFORMATION ON BOTTLE AND FILTER

To avoid accidental leakage protect bottle from jarring impact, and ensure nozzle is closed and cap secure. Store bottle upright.

Retain packaging for instructions.

Filter Maintenance and Storage: When the Potable Aqua® Traveller™ will not be in use for long periods, flush the bottle and cap assembly with tap water. Replace the filter cap and store in an upright position. The useful life of the filter cartridge is variable dependent upon usage and water contamination. The cartridge is rated to filter up to 350 liters, but should be replaced when the bottle becomes too difficult to squeeze (i.e. the filter is blocked).

Optional statements

- For Advanced Water Purification Technology, you don't have to look further than the brand outdoor enthusiasts, travelers and militaries from around the world have been trusting for years.
- Where are you going?
- Can you trust hotel water?
- Will there be drinking water available on your travels?
- Run out of water on your hike?
- Got a survival kit?-What about water?
- Ideal for: Camping, International Travel, Hunting, Homeland Emergency, Hiking, Fishing Cycling, Sports, Day Trips, Expeditions and more.
- Potable Aqua® Emergency Drinking Water Germicidal Tablets Make Questionable Water Bacteriologically Suitable to Drink
- Emergency Drinking water
- When used as directed, they make water bacteriological suitable for drinking.
- Used worldwide by campers, hikers, military, emergency organizations, and any needing to drink water of questionable bacteriological quality.
- Effective against water of questionable bacterial quality
- Effective against cyst such as Giardia lamblia and bacteria such as Vibrio cholera.
- Potable Aqua has been proven effective against Giardia lamblia and Vibrio cholera when used as directed.
- Potable Aqua water purification tablets.
- Iodine-based compound (no chlorine)
- 2 tablets of Potable Aqua makes 1 quart of most water bacteriological suitable to drink.
- Uniform dosage per tablet assured - no guesswork.

- Easy to use
- Treats up to 25 quarts
- A must for first aid and survival kits
- Ideal for emergency use at home
- Use in emergency drinking water situations
- Makes questionable water bacteriological suitable to drink
- Iodine tablets water treatment
- Water Purification Technology (1)
- Effective water treatment made simple
- Do not ingest tablets. (Tablets not to be swallowed.)
- Includes Potable Aqua® Water Purification Tablets
- Trusted water purification technology used worldwide
- Potable Aqua® Water Purification Tablets are EPA registered.
- Ready in just 35 minutes
- Powered by Potable Aqua
- Emergency Drinking Water Germicidal Tablets
